Dear Mr. Keppler:

Docket 50-305
Operating License DPR-43
IE Bulletin No. 78-10, Bergen-Paterson Hydraulic
Shock Suppressor Accumulator Spring Coils

The referenced IE Bulletin concerns a problem experienced involving broken accumulator spring coils found in early model Bergen-Paterson hydraulic snubbers. The bulletin requests action by facilities that have Bergen-Paterson snubbers installed.

Bergen-Paterson hydraulic snubbers are not used at the Kewaunee Nuclear Power Plant. Therefore, IE Bulletin No. 78-10 does not apply to the Kewaunee Plant. No further action is planned regarding this bulletin.

Very truly yours,
