Attention: Directorate of Licensing

- Reference: a) License No. DPR-36 (Docket No. 50-309)
- b) Maine Yankee letter dated May 21, 1973
- c) Maine Yankee letter dated May 1, 1974

Dear Sir:

This letter is written to clarify the requests of references (a) and (c) that Combustion Engineering Report CENPD-93 entitled "Maine Yankee Precritical Vibration Monitoring Program" be withheld in its entirety from public disclosure.

- a) The information reveals data and material concerning Combustion Engineering and customer funded research and development.
- b) The information contained in this report is not publicly available.
- c) The information contained within the report could enable a nuclear steam supply system manufacturer in competition with Combustion Engineering, Inc., to assess the present capabilities of the Combustion Engineering reactor and predict future marketable performance characteristics of the Combustion Engineering system based upon a knowledge of the current Combustion Engineering design methods and calculational results, and may result in competitive and economic disadvantage to Combustion Engineering.

We trust you find this information satisfactory; however, should you desire additional information feel free to contact us.

Very truly yours,

MAINE YANKEE ATOMIC POWER COMPANY

W. P. Johnson
