WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

April 16, 1979

Mr. J. G. Keppler, Regional Director  
Office of Inspection & Enforcement  
Region III  
U. S. Nuclear Regulatory Commission  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Gentlemen:

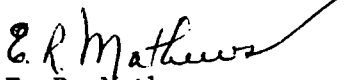

Docket 50-305  
Operating License DPR-43  
IE Bulletin No. 79-03

IE Bulletin addresses longitudinal weld defects in SA-312 type 304 stainless steel pipe manufactured by Youngstown Welding & Engineering Company.

An investigation of the piping records at the Kewaunee Nuclear Power Plant has revealed that welded seam pipe manufactured by Youngstown Welding and Engineering Company was not employed in fabrication of safety related systems at Kewaunee.

As a result of this investigation no further action is necessary.

Very truly yours,

  
E. R. Mathews  
Vice President  
Power Supply & Engineering
