Dear Mr. Keppler:

Docket 50-305
Operating License DPR-43
IE Bulletin 80-12 Decay Heat Removal System Operability

The subject bulletin, which we received on May 12, 1980, required a response within thirty days. Although we have completed our review, we have not had sufficient time to process our response, due to activities associated with our annual refueling outage. Our review has indicated that the current design is adequate. We will submit our response to the referenced bulletin within one week of the date of this letter.

Very truly yours,

Carl Mathews for
