Re: Kewaunee Nuclear Power Plant

Dear Bob:

I am enclosing for your use a Code for the AEC Documents which I have supplied you in the above referenced case. The first number appearing is keyed to the original Freedom of Information Act request dated July 1, 1972. Two corrections need to be made. First, the files numbered 2-C which relate to Regulatory Operations should be changed to 2-CO. This change is necessary in order to avoid duplication with the 2-C file related to general correspondence. Second, the files marked 2-SC which relates to the show cause proceeding should be changed to 7-SC. This change is necessary in order to avoid duplication with file 2-SC which relates to general correspondence regarding the safety review.

I am also enclosing a list of some 48 documents which were included in the Argonne National Laboratory files. These documents have already been given to you, or are readily available to the general public, or are under the control of the Applicant.

Sincerely,

R. Rex Renfrow, III
Counsel for AEC Regulatory Staff
