Re: Kewaunee Nuclear Power Plant

Dear Bob:

Enclosed is a copy of "The Radiation Embrittlement of Pressure Vessel Steels and the Safety of Nuclear Reactor Pressure Vessels" by M. S. Wechsler. I have contacted the counsel for the Oak Ridge National Laboratory and he has stated that Oak Ridge considers this a draft document.

As a continuation of our desire to accomplish discovery through an informal process, I am providing you this document even though the report is in draft form and not yet finalized by the author. The furnishing of this document is without prejudice to AEC's right to withhold draft documents from public disclosure as provided in the exceptions of the Freedom of Information Act.

Sincerely,

R. Rex Renfrow, III  
 Counsel for AEC Regulatory Staff

cc: Gerald Charnoff, Esq.  
 M. S. Wechsler
