**BELL BEND NUCLEAR POWER PLANT
SCHEDULE INFORMATION FOR RAI No. 84,
FSAR CHAPTER 9
BNP-2011-122 Docket No. 52-039**

- References:
- 1) M. Canova (NRC) to R. Sgarro (PPL Bell Bend, LLC), Bell Bend COLA – Request for Information – Final Letter No. 84 (RAI No. 84) with Revision – SBPA - 3990, e-mail dated March 23, 2010
 - 2) R. R. Sgarro (PPL Bell Bend, LLC) to U.S. Nuclear Regulatory Commission, BNP-2011-034, "Partial Response and Schedule Information for RAI No. 84, FSAR Chapter 9, and Schedule Information for RAI No. 93, FSAR Chapter 2", dated January 31, 2011 (ML110350581)

The purpose of this letter is to provide updated schedule information for the Request for Additional Information (RAI) No. 84 (Reference 1). This RAI addresses the Ultimate Heat Sink, as discussed in Section 9.2.5 of the Final Safety Analysis Report (FSAR) and submitted in Part 2 of Bell Bend Nuclear Power Plant (BBNPP) Combined License Application (COLA).

Reference 2 identified that PPL Bell Bend, LLC (PPL) would provide a schedule for submittal of open RAI No. 84 question responses by June 30, 2011. Open RAI No. 84 Questions 09.02.05-3, 09.02.05-4 Bullet 7, 09.02.05-4 Bullet 11, 09.02.05-5 Bullet 2 have been dependent on RAI responses that were addressed through the U.S. Evolutionary Power Reactor (U.S. EPR) FSAR. The work to address these questions and provide BBNPP RAI input is complete at this time. However, the work to incorporate the input into a site-specific application will result in additional BBNPP Ultimate Heat Sink analyses. The additional scope and duration of any site-specific analyses is being assessed and the staff will be provided the BBNPP RAI No. 84 open question responses by March 31, 2012.

The submittal of the responses for RAI No. 84 Questions 09.02.05-3, 09.02.05-4 Bullet 7, 09.02.05-4 Bullet 11, 09.02.05-5 Bullet 2 by March 31, 2012 is the only new regulatory commitment in this letter.

Should you have questions or need additional information, please contact the undersigned at 570.802.8102.
