

10 CFR § 50.54(f) 10 CFR § 50.54(hh)(2) L-2011-216 June 10, 2011

U. S. Nuclear Regulatory Commission Attn: Document Control Desk 11555 Rockville Pike Rockville, MD 20852

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
30-Day Response to NRC Bulletin 2011-01, Mitigating Strategies

NRC Bulletin 2011-01 requested that licensees provide information on their mitigating strategies programs in order for NRC to confirm continued compliance with 10 CFR 50.54(hh)(2). Accordingly, the Florida Power and Light Company (FPL) response to the 30-day questions for Turkey Point is as follows:

NRC Question 1

Is the equipment necessary to execute the mitigating strategies, as described in your submittals to the NRC, available and capable of performing its intended function?

FPL Response to Question 1

Yes. Required materials and equipment to execute the mitigating strategies, as described in Enclosure 2 of FPL letter L-2007-007 dated February 9, 2007 and the NRC Safety Evaluation forwarded by NRC letter dated August 2, 2007, are available and capable of performing their intended function(s).

NRC Question 2

Are the guidance and strategies implemented capable of being executed considering the current configuration of your facility and current staffing and skill levels of the staff?

FPL Response to Question 2

Yes. Guidance and implementing procedures are in place to accomplish the objective of strategies delineated for compliance with 10 CFR 50.54(hh)(2). Implementation of the

strategies is supported by the current plant configuration, staffing levels and skill levels of the plant staff.

If there are any questions, please call Mr. Robert Tomonto at 305-246-7327.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 10th 2011

Very truly yours,

Mulley

Michael Kiley Vice President Turkey Point Nuclear Plant
