Dear Mr. Bloe:

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As we discussed by telephone on May 10, 2011, we have listed the total possession limit for byproduct materials listed in Item 6.A. not to exceed 10 millicuries per radionuclide and 100 millicuries total (except as specified in condition 19) in Item 8.A. This change was made in a corrected copy to Amendment No. 3 to your NRC Material License No. 34-26645-02.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (630) 829-9839, if you have any questions.

Sincerely,

William P. Reichhold
