Rob,

Attached is DRAFT RAI No. 56. You have until January 29, 2009 to review it and to decide whether you need a conference call to discuss it. After the call or after January 29, 2009 the RAI will be finalized and sent to you. You then have 30 days to respond.

John Rycyna, PE

Docket No. 52-016

SRP Section: 14.02 - Initial Plant Test Program - Design Certification and New License Applicants
Application Section: 1.8.2, "DEPARTURES," in FSAR Section 1.0, "INTRODUCTION AND GENERAL DESCRIPTION OF THE PLANT."

QUESTIONS for Quality and Vendor Branch 1 (AP1000/EPR Projects) (CQVP)

14.02-32

SRP 14.2.I.3 states that a COL application referencing a standardized design must address COL action items. The applicant's FSAR lists the COL information items in Table 1.8-2, "FSAR Sections that Address COL Items." Table 1.8-2 lists seven COL information items for Chapter 14.2. However, Chapter 14.2 of the US EPR FSAR assigns the COL applicant responsibility for nine information items. Chapter 14 of the applicant's FSAR addresses eight COL action items. Specifically, Section 14.2.4, "Conduct of Test Program," Section 14.2.9, "Trial Use of Plant Operating and Emergency Procedures," and Table 14.2-1 of the U.S. EPR Design Certification application, "List of Initial Tests for the U.S. EPR," identify testing of the Raw Water Supply System, Test #43, "Raw Water Supply System," as a COL test. Accordingly, the NRC staff requests that the applicant revise Table 1.8-2 and Chapter 14.2 of the FSAR to address all information items assigned to the COL in Section 14.2 of the US EPR FSAR, or justify their omission.
