Eric,

Their response is weeks late. They are going to provide it ASAP. After it's here let me know if there are issues and we can have a call then.

BTW, The latest version of rev 3 once again failed to get processed into ADAMS yesterday. They will send a new one tomorrow.

Thanks.

John

John-

Yes, my branch chief (Kevin Williams) says that they can commit to EAL option 2. Please send me any formal correspondence on this if they decide to do so because I would like to reference the decision in the safety evaluation.

I would suggest that a conference call with the applicant could be useful to help them understand the scope of the issues. I would also caution that the applicant needs to carefully address each of the four critical elements in option 2.

-Eric

UniStar would like to know if they could commit to EAL Option 2 from the recent NEI letter rather than answer each question on this RAI.

Please advise.

Thanks

John

George,

Attached please find the subject request for additional information (RAI). A draft of the RAI was provided to you on October 22, 2008. No conference call was requested to discuss this RAI. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.
