MN No. 11-016

LICENSEE: ENTERGY NUCLEAR OPERATIONS, INC.

FACILITY: INDIAN POINT ENERGY CENTER, UNITS 2 AND 3

SUBJECT: SUMMARY OF JUNE 2, 2011, ANNUAL ASSESSMENT MEETING WITH MEMBERS OF THE PUBLIC

On June 2, 2011, from 6:30 pm to 10:00 pm, the U.S. Nuclear Regulatory Commission (NRC) met with members of the public at the Colonial Terrace in Cortlandt Manor, New York to discuss the NRC's assessment of safety performance at Indian Point for calendar year 2010. The NRC presentation included information on the Reactor Oversight Process (ROP) and the results of NRC's performance assessment for Indian Point Units 2 and 3.

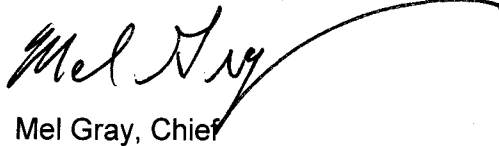

Although the NRC intended to include a presentation on the safety of U.S. nuclear power plants in light of the events in Japan, the NRC staff decided to move directly from the assessment portion of the meeting to taking statements and addressing questions from members of the public.

Public attendance was estimated to be approximately 500 and included representatives of federal, state, and local governments. Not everyone in attendance signed in or requested time to speak. Approximately 115 individuals requested time to make a statement or ask questions. The NRC staff remained afterward to speak with stakeholders individually who did not have an opportunity to speak during the meeting. Most people who spoke made statements against the operation of Indian Point Units 2 and 3. In addition to oral statements, the NRC received written statements and documents.

The NRC's assessment letter can be found in ADAMS with an Accession Number of ML110620464. The annual assessment meeting notice with the attached meeting agenda can

be found in ADAMS package ML111220200. The NRC slides can be located in ADAMS with an Accession Number of ML111672121. The written statements from the public can be located in ADAMS with an Accession Number of ML111680173. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
