Dear Mr. Jackson:

It has come to our attention that an omission existed in Amendment No. 04 to your NRC Material License No. 21-24953-01. This omission has been corrected by the addition of a total possession limit in Item 8.A. and 8.B. in the enclosed Corrected Copy of License Amendment No. 04.

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As we discussed by telephone on March 16, 2011, we have listed the total possession limit for cesium-137 as 9 millicuries in Item 8.A. and for americium-241 as 44 millicuries.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (623) 214-5213 if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "James R. Mullauer".
