Steve,

I would like to inform that We for Comanche Peak COLA (Unit 3 and 4) plan the test submittal of Revision 2 to you on coming Monday (6/20) before the COL Applicant (Luminant)officially submit COLA Revision 2 to NRC. The disks should be received to you by FedEx on Tuesday morning. also I would like to confirm that you would be the correct point of contact for this. If not, please advise me.

The purposes are to ensure the packing Slip and hyperlinks between COLA and DCD which exists in NRC system, ADAMS correctly works according to Melvin's kindly suggestion. I really appreciate Melvin's continuous support for our questions of this submittal, and also MHI/MNES did the exact same action (test submittal) for DCD Submittal with Jeff Ciocco. Jeff did great support with DCD submittal, that was appreciating so much. Jeff sent us the feedback last time in 1-2 days at the DCD test submittal, so that MNES is expecting to hear any issues and/or findings from NRC in 1-2 days and we could fix errors and transmit final COLA toLuminant on 6/24 smoothly and successfully, then Lumiant would be able to officially submit COLA to NRC.

Best Regards,
Yukako
