Docket No. 50-305

Wisconsin Public Service Corporation
ATTENTION: Mr. E. W. James
Senior Vice President
P. O. Box 1200
Green Bay, Wisconsin 54305

Gentlemen:

We have reviewed the revisions to the Kewaunee Industrial Security Manual, dated April 22, 1974, as supplemented by your letter of May 28, 1974.

We find that there still are certain portions of the Manual that require additional clarification. Our findings are presented in the enclosure to this letter. The enclosure is being withheld from public disclosure.

It is requested that you respond to the questions in the enclosure within 30 days after receipt of this letter.

Sincerely,

A handwritten signature in cursive script, appearing to read "Karl Kniel", is written over a horizontal line.

Gentlemen:

Amendments to the Commission's regulations (10 CFR 50.59) relating to the manner in which proposed changes in the technical specifications for facility operating licenses are to be requested and acted upon became effective on April 22, 1974. The purpose of this letter is to call this to your attention and point out that all future requests for technical specification changes that you submit must be in the form of an application for a license amendment in accordance with the applicable provisions of Parts 2 and 50 of 10 CFR Chapter I.

Note that Section 50.30(b) of 10 CFR Part 50 requires that applications be executed in three signed originals by the applicant or duly authorized officer thereof under oath or affirmation. In addition to the three signed originals, 37 conformed copies of all portions of those applications requesting technical specification changes for power and test facilities, and 19 conformed copies of all portions of those for research and critical facilities should be filed.

Sincerely,

Voss A. Moore, Assistant Director
for Light Water Reactors, Group 2
Directorate of Licensing
