WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

July 17, 1973

Mr. John F. O'Leary, Director
Directorate of Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. O'Leary:

Subject: Kewaunee Nuclear Power Plant
Construction Permit No. CPPR-50

AEC Docket No. 50-305

The latest completion date for the Kewaunee Nuclear Power Plant Construction Permit is August 31, 1973.

In December 1972, specific design criteria were issued to deal with postulated breaks in high energy lines. Meeting these criteria has required very significant modifications to many parts of the plant. The plant, in areas other than those affected by these modifications, is essentially complete, but because of the plant modifications, our overall schedule may be somewhat delayed. Our schedule now calls for fuel loading in early September.

To reflect our current project schedule and to provide against minor unanticipated delays we request that our construction permit be extended for 90 days until November 29, 1973.

Very truly yours,

E. W. James, Senior Vice-President
Power Generation & Engineering
