Dear Mr. O'Leary:

Subject: Amendment No. 33 to the Application for
Construction Permit and Operating License
for the Kewaunee Nuclear Power Plant

AEC Docket 50-305

We submit, herewith, eighty-five (85) copies of Amendment No. 33 to the Kewaunee Nuclear Power Plant Application for Construction Permit and Operating License.

This submittal consists of answers in response to Mr. Karl Kniel's letter dated September 28, 1973, which requested an analysis of the containment pressure response to consider the effects of possible energy addition from the steam generators during the period when the core has been recovered with water. In addition, we have made miscellaneous changes to pages of the Technical Specifications of the FSAR.

Very truly yours,

E. W. James, Senior Vice-President
Power Generation & Engineering

INSTRUCTIONS FOR MAKING PAGE CHANGES

Amendment No. 33 material is enclosed for insertion into the FSAR Volumes 1 thru 4, Questions and Answers Volume I, and the Technical Specifications. The material is assembled sequentially for insertion into the binders of the aforementioned Volumes in that order.

The following listing of material furnished as Amendment No. 33 will serve as a check list for entering revised and new pages. Insert the revised or new pages listed in Column 1 below, discarding only the superseded pages listed in Column 2. Pages with no revision date are exact replicas of the originals.

Amendment No. 33 changes are marked by the number 22 (indicating FSAR Revision 22) adjacent to a vertical line in the borders of the pages alongside the new material. Pages containing only old material (which has changed location to accommodate new material on an adjacent page) are marked only with the new amendment number and date.

File these Instruction Sheets and the Cover Letter in the front of Volume 1 as a record of change.
