Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Degraded Grid Voltage

During a meeting held in your Bethesda offices on October 14, 1981, WPS agreed to submit certain information regarding the degraded grid voltage concerns on this date. We have found that some of the information needed for the submittal has been difficult to retrieve, and therefore, we are requesting an extension until November 30, 1981. This date has been concurred with by the Kewaunee project manager.

Very truly yours,
