June 25, 1982

Dr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Dr. Denton:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Inservice Inspection Program

- References:
- (1) Letter from S. A. Varga (NRC) to E. R. Mathews (WPS) dated March 30, 1982
 - (2) Letter from E. R. Mathews (WPS) to S. A. Varga (NRC) dated May 7, 1982
 - (3) Letter from E. R. Mathews (WPS) to A. Schwencer (NRC) dated May 1, 1981

Enclosed please find forty copies of a revision to proposed Amendment 25C to the Kewaunee Nuclear Power Plant Technical Specifications. These proposed revised pages supersede the affected pages previously submitted in proposed Amendment 25C on May 1, 1981.

The revisions were necessitated by NRC questions (Reference 1) concerning the Inservice Inspection Program at the Kewaunee Nuclear Power Plant. In Reference 2, WPS committed to clarifying several statements in the Technical Specifications. This submittal provides that clarification with the revisions marked by change bars.

As indicated in Reference 3, WPS has been following the Inservice Inspection Program presented in Proposed Amendment No. 25C since May 1, 1981. By this letter we are informing you that we intend to continue following this program including the revisions presented in this submittal effective June 25, 1982.

The enclosed revision to Proposed Amendment No. 25C is of the same technical issue which has been submitted prior to the March 23, 1978 enactment of 10CFR 170.22, "Schedule of Fees for Facility License Amendments." This revision to Amendment No. 25C is exempt from the fee associated with the processing of this Technical Specification change.

Very truly yours,

C. W. Giesler
Vice President - Nuclear Power
