## WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

June 24, 1983

Dr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Docket 50-305  
Operating License DPR-43  
Kewaunee Nuclear Power Plant  
Revision to Proposed Amendment No. 54 to the KNPP Technical Specifications

Reference: 1) Letter to H. R. Denton of the NRC from C. W. Giesler  
of WPSC dated April 29, 1983

In our letter of April 29, 1983, we submitted Proposed Amendment No. 54 to the Kewaunee Nuclear Power Plant Technical Specifications for your approval. A subsequent review of our submittal revealed several errors in Figure TS 6.2.1 which depicts the offsite organization for plant management and technical support. As a result, the following changes have been made in the figure:

- a) a typographical error in the title of the Nuclear Licensing and Systems Supervisor has been corrected,
- b) the Plant Operations and Review Committee is shown to report directly to the Kewaunee Plant Manager instead of providing "communications" (solid vs dashed line), and
- c) the Nuclear Safety Review and Audit Committee is shown to report directly to the Vice President - Nuclear Power instead of providing "communications" (solid vs dashed line).

The attached revised figure replaces the figure submitted earlier by reference 1.

In accordance with the requirements of 10CFR50.90, please find enclosed three (3) signed and notarized originals of this letter and forty (40) copies of the revision to Figure TS 6.2.1. Since this is a revision to an existing proposed amendment presently under review, no additional fee is required.
