Dr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Denton:

Docket 50-305  
Operating License DPR-43  
Kewaunee Nuclear Power Plant  
Revision to Proposed Amendment No. 57  
To the KNPP Technical Specifications

Reference: 1) Letter from C. W. Giesler to H. R. Denton dated January 13, 1984

In reference 1 we submitted Proposed Amendment No. 57 to the technical specifications for the Kewaunee Nuclear Power Plant. Following the submittal of this proposed amendment it became apparent that using the words "important to safety" in our proposed technical specification may cause future misinterpretations. The purpose of this submittal is to revise the page which utilized this currently "undefined" wording.

Enclosed please find three signed and notarized originals and forty (40) copies of Proposed Amendment 57a. The attachment to this letter (revision to Page TS 4.2.1) should be inserted for the previously submitted page TS 4.2.1 in Proposed Amendment No. 57 (reference 1). The unaffected pages previously submitted in Proposed Amendment 57 are accurate and should be reviewed as submitted.

Very truly yours,

*C. W. Giesler*
