ATTN: Mr. D. C. Hintz  
Vice President  
Nuclear Power  
Post Office Box 19002  
Green Bay, WI 54307-9002

Gentlemen:

This is in response to your submittal of Revision 7 to the Kewaunee Nuclear Power Plant Emergency Plan dated February 16, 1987. This revision was received in our office on February 19, 1987.

We have reviewed the changes to the Kewaunee Nuclear Power Plant Emergency Plan and determined that they are consistent with the requirements of 10 CFR 50.54(q). In a telephone conversation between Mr. Dave Seebart of your staff, and Mr. James Foster of my staff on March 27, 1987, clarification was obtained concerning the omission of Table 4-1, Chart J from the submitted revision, and we understand this will be corrected. It was determined that the remainder of the changes do not decrease the effectiveness of the emergency plan and are, therefore, acceptable.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to your emergency plans which may decrease their effectiveness. However, if your safety review assures no decrease in emergency preparedness effectiveness, then such changes may be made without prior NRC approval. In all cases, you must furnish copies of each implemented or proposed change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR Part 50, Appendix E, Section V.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions regarding this letter, please contact Mr. James E. Foster of my staff at (312) 790-5655.

Sincerely,

"Original signed by W.D. Shafer"
