Subject: Request for Additional Information, Fibrek, Docket No. 03033817, License No. 47-25327-01, and Mail Control No. 575113

Dear Sir/Madame:

In response to your request for information regarding the significance of our company name change, we provide the following answers.

The transaction was a direct flow through; unit holders received 1 common share of the new corporation on a one to one basis. All board of directors and senior officers of SFK Pulp Recycling continue to serve as directors and senior officers of the new corporation Fibrek.

The name has changed from SFK Pulp Recycling to Fibrek. The contacts on site are Brad Morgan, Radiation Safety Officer (304) 333-6189, or Chris Oliverio, Assistant Radiation Safety Officer (304) 333-6186.

There were no changes in personnel or duties related to the licensing program. There were also no changes in the organization, location, facilities, equipment or procedures that were previously in place.

There will be no transfer of control, nor any changes in the status of the surveillance program. It will continue as before. There will be no transfer of records; there will be no changes to the documentation or record keeping procedures already in place.

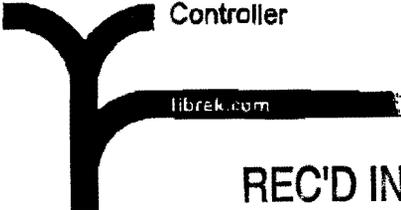

Since there is no transfer, Fibrek will abide by all constraints, conditions, requirements and commitments as held by SFK Pulp Recycling previously.

Financial assurance for decommissioning does not apply in this situation.

I hope that this provides the needed information. Should you need anything further, please do not hesitate to contact me.

Sincerely,

M. Jill Lake
Controller
