Subject: Request for Information Regarding WRAMC - Forest Glen Annex Radiological Commodities Usage?

Hi Keri,

My name is Mike Barsa and I'm with Cabrera Services. I actually worked with you briefly about two years ago regarding a similar request. We're currently working for USACE on another historical site assessment to support BRAC activities at the Forest Glen Annex of Walter Reed Army Medical Center in Silver Spring, MD, and I was directed to look into the possibility that Army Materiel Command (more specifically, the DOD Low Level Rad Waste Team and/or AMC Historian/Safety Office) may have information, inventories, documentation, etc. regarding any radiological materials usage at any of the buildings there. I seem to recall when we looked into documentation like this two years ago for the HSA for the Main Post area of Walter Reed Army Medical Center that we didn't turn up anything terribly useful, but I just figured I should at least explore the possibility.

Thanks!
-Mike Barsa
