**Subject:** Calvert Cliffs Proposed Unit 3 Nuclear Station

Kevin,

Unistar submitted additional information regarding its application for the proposed Unit 3 at Calvert Cliffs nuclear power plant. The NRC determined that the application, as supplemented, is acceptable for docketing and processing. NRC's letter to Unistar accepting the ER for docketing is attached. The letter notes that a public scoping meeting will be held on March 19, 2008. The meeting will be near the plant, at the Holiday Inn in Solomons, MD. Also attached is the Federal Register notice of accepting the application for docketing.

The accession number for part 1 of the partial application received on July 13, 2007 in ADAMS is ML071980294. The accession numbers for the supplemental information in ADAMS for July 16, 2007, August 2, 2007, October 30, 2007, and December 14, 2007 are ML072000363, ML072200533, ML072220589, ML073060128, ML073520192, ML073520211, and ML073520221.

An NRC environmental review team plans to visit the site the week of March 17 - 20. If one or two people from your Region 3 office would like to participate in the site visit with our team, or if you have any other questions, please contact me at (301) 415-5971 or [tlf@nrc.gov](mailto:tlf@nrc.gov).

Mr. R. M. Krich, Senior Vice President  
Regulatory Affairs  
UniStar Nuclear  
750 E. Pratt Street  
14<sup>th</sup> Floor  
Baltimore, MD 21202-3106

SUBJECT: DOCKETING OF THE PARTIAL COMBINED LICENSE APPLICATION FOR  
CALVERT CLIFFS NUCLEAR POWER PLANT, UNIT 3

Dear Mr. Krich:

On July 13, 2007, as supplemented on July 16, August 2, September 11, October 30, December 14, 2007, and January 14, 2008, UniStar Nuclear (UniStar) submitted a partial combined license (COL) application to the U.S. Nuclear Regulatory Commission (NRC) for an U.S. EPR reactor to be located adjacent to the Calvert Cliffs Nuclear Power Plant, Units 1 and 2 (CCNPP1 and 2), in Lusby, Maryland. This potential new nuclear plant is designated CCNPP, Unit 3 (CCNPP3). The partial application included the environmental report (ER) as well as additional information that must accompany the first part of any COL application as required by 10 CFR 2.101(a)(5).

The NRC staff documented the status of its acceptance review efforts in a letter dated August 23, 2007. You provided additional information regarding your partial COL application on October 30, December 14, 2007, and January 14, 2008. The NRC staff has reviewed your supplemental correspondence and finds that you have provided sufficient information to resolve the issues identified in the August 23, 2007, letter with respect to the level of detail required to perform a meaningful review of the application. Consequently, the NRC staff accepts the partial COL application for further processing and review. The docket number assigned to this project is 52-016. Please reflect this docket number on all future correspondence.

In your May 31, 2007, response to Regulatory Issue Summary 2007-08, you stated that the second and final part of the CCNPP3 COL application will be submitted by the end of March 2008. When submitted, the NRC staff will undertake an acceptance review of that part of the application in accordance with Office Instruction NRO-REG-100, "Acceptance Review Process for Design Certification and Combined License Applications," as supplemented by Draft Revision 1, issued on January 7, 2008, for use and comment, to evaluate completeness and technical sufficiency of the application and its suitability for docketing.

With regard to your partial application, the NRC staff has established the milestone of March 19, 2008, for the site audit and public scoping meeting as part of the ER review. The NRC staff intends to issue a more complete schedule for the review of the full COL application when the acceptance review of the second part of the application is completed.

R. Krich

-2-

Enclosed is a notice of acceptance of the partial application for docketing. This notice is being forwarded to the Office of the *Federal Register*. After receipt and acceptance of the remainder of the application, a separate notice will be forwarded and published in accordance with the provisions of 10 CFR 2.104, regarding the opportunity to file a petition for leave to intervene in the hearing required for this application.

Should you have any questions about this project, please contact John Rycyna, the acting Lead Project Manager for the CCNPP3 COL application at (301) 415-4122 or [jxr7@nrc.gov](mailto:jxr7@nrc.gov).

Sincerely,

**OFFICIAL RECORD COPY**

U.S. NUCLEAR REGULATORY COMMISSION  
UNISTAR NUCLEAR  
ACCEPTANCE FOR DOCKETING OF A PARTIAL APPLICATION FOR  
COMBINED LICENSE FOR CALVERT CLIFFS NUCLEAR POWER PLANT, UNIT 3  
DOCKET NO. 52-016

On July 16, 2007, the U.S. Nuclear Regulatory Commission (NRC, the Commission) received a partial combined license (COL) application from UniStar Nuclear (UniStar), dated July 13, 2007, as supplemented by letters dated July 16, August 2, September 11, October 30, and December 14, 2007, and January 14, 2008. The COL application was filed pursuant to Section 103 of the Atomic Energy Act and Subpart C, "Combined Licenses," of Title 10 of the *Code of Federal Regulations* (10 CFR), Part 52, "License Certifications and Approvals for Nuclear Power Plants." The site location is in Lusby, Maryland, and is identified as the Calvert Cliffs Nuclear Power Plant, Unit 3 (CCNPP3). The partial application included the environmental report, final safety analysis report information regarding site suitability, as well as other information required by 10 CFR 2.101(a)(5). A notice of receipt and availability of this application was previously published in the *Federal Register* (72 FR 45832) on August 15, 2007.

The NRC staff has determined that UniStar has submitted information in accordance with 10 CFR Part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," specifically 10 CFR 2.101(a)(5) regarding submission of a COL application in two parts, and 10 CFR Part 52, and that the partial application is acceptable for docketing. The docket number established for CCNPP3 is 52-016.

The NRC staff will perform a detailed technical review of the partial COL application. Docketing of the partial COL application does not preclude the NRC from requesting additional

information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The NRC staff will also perform an acceptance review of the second and final part of the application when it is tendered. After completion of the acceptance review for the full application, if it is found acceptable for docketing, the Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR Part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the full COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR Part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the NRC staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future *Federal Register* notice.

Finally, the Commission will announce in a future *Federal Register* notice, the opportunity to petition for leave to intervene in the hearing required for this application by 10 CFR 52.85.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, and will be accessible electronically through the Agencywide Documents Access System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have

access to ADAMS, or who encounter problems in accessing documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov). The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>.

Dated at Rockville, Maryland this 25th day of January 2008.

BILLING CODE 7555-01-P

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-289]

**Amergen Energy Company, LLC; Notice of Receipt and Availability of Application for Renewal of Three Mile Island Nuclear Station, Unit 1, Facility Operating License No. DPR-50 for an Additional 20-Year Period**

The U.S. Nuclear Regulatory Commission (NRC or Commission) has received an application, dated January 8, 2008, from AmerGen Energy Company, LLC, filed pursuant to section 104b of the Atomic Energy Act of 1954, as amended, and Title 10 of the *Code of Federal Regulations* part 54 (10 CFR part 54), to renew the operating license for the Three Mile Island Nuclear Station (TMI), Unit 1. Renewal of the license would authorize the applicant to operate the facility for an additional 20-year period beyond the period specified in the current operating license. The current operating license for TMI, Unit 1, (DPR-50), expires on April 19, 2014. TMI, Unit 1, is a Pressurized-Water Reactor designed by Babcock & Wilcox that is located near Middletown, PA. The acceptability of the tendered application for docketing, and other matters including an opportunity to request a hearing, will be the subject of subsequent **Federal Register** notices.

Copies of the application are available to the public at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852 or through the Internet from the NRC's Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room under Accession Number ML080220207. The ADAMS Public Electronic Reading Room is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>. In addition, the application is available at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. Persons who do not have access to the internet or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR Reference staff at 1-800-397-4209, extension 4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

A copy of the license renewal application for the TMI, Unit 1, is also available to local residents near the site at the Middletown Public Library, 20 North Catherine St., Middletown, PA 17057, and at the Penn State Harrisburg Library, 351 Olmsted Drive, Middletown, PA 17057.

Dated at Rockville, Maryland, this 25th day of January 2008.

For the Nuclear Regulatory Commission.

**Samson Lee,**

BILLING CODE 7590-01-P

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 52-016]

**Unistar Nuclear; Acceptance for Docketing of a Partial Application for Combined License for Calvert Cliffs Nuclear Power Plant, Unit 3**

On July 16, 2007, the U.S. Nuclear Regulatory Commission (NRC, the Commission) received a partial combined license (COL) application from UniStar Nuclear (UniStar), dated July 13, 2007, as supplemented by letters dated July 16, August 2, September 11, October 30, and December 14, 2007, and January 14, 2008. The COL application was filed pursuant to section 103 of the Atomic Energy Act and Subpart C, "Combined Licenses," of Title 10 of the *Code of Federal Regulations* (10 CFR), part 52, "License Certifications and Approvals for Nuclear Power Plants." The site location is in Lusby, Maryland, and is identified as the Calvert Cliffs Nuclear Power Plant, Unit 3 (CCNPP3). The partial application included the environmental report, final safety analysis report information regarding site suitability, as well as other information required by 10 CFR 2.101(a)(5). A notice of receipt and availability of this application was previously published in the **Federal Register** (72 FR 45832) on August 15, 2007.

The NRC staff has determined that UniStar has submitted information in accordance with 10 CFR part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," specifically 10 CFR 2.101(a)(5) regarding submission of a COL application in two parts, and 10 CFR part 52, and that the partial application is acceptable for docketing. The docket number established for CCNPP3 is 52-016.

The NRC staff will perform a detailed technical review of the partial COL application. Docketing of the partial COL application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The NRC staff will also perform an acceptance review of

the second and final part of the application when it is tendered. After completion of the acceptance review for the full application, if it is found acceptable for docketing, the Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the full COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR Part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the NRC staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice.

Finally, the Commission will announce in a future **Federal Register** notice, the opportunity to petition for leave to intervene in the hearing required for this application by 10 CFR 52.85.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, and will be accessible electronically through the Agencywide Documents Access System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov). The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>.

Dated at Rockville, Maryland this 25th day of January 2008.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Design Information Questionnaire-IAEA-N-71 and associated Forms N-72, N-73, N-74, N-75, N-91, N-92, N-93, N-94.

2. *Current OMB approval number:* 3150-0056.

3. *How often the collection is required:* Approximately 1 time annually.

4. *Who is required or asked to report:* Licensees of facilities on the U.S. eligible list who have been notified in writing by the NRC to submit the form.

5. *The number of annual respondents:* 1.

6. *The number of hours needed annually to complete the requirement or request:* 360 reporting hours (1 respondent × 360 hours per response).

7. *Abstract:* In order for the United States to fulfill its responsibilities as a participant in the US/International Atomic Energy Agency (IAEA) Safeguards Agreement, the NRC must collect information from licensees about their installations and provide it to the IAEA. Licensees of facilities that appear on the U.S. eligible list and have been notified in writing by the NRC are required to complete and submit a Design Information Questionnaire, IAEA Form N-71 (and the appropriate associated IAEA Form) or Form N-91, to provide information concerning their installation for use of the IAEA.

Submit, by March 31, 2008, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC World Wide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Margaret A. Janney (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7245, or by e-mail to [INFCOLLECTS@NRC.GOV](mailto:INFCOLLECTS@NRC.GOV).

Dated at Rockville, Maryland, this 25th day of January 2008.

For the Nuclear Regulatory Commission.
