Subject: Comment in support of PRM-50-96 NRC-2011-0069

June 23, 2011 (4:40 pm)
OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Secretary,

I am writing in support of PRM 50-96 (NRC-2011-0069) submitted by Thomas Popik and the Foundation for Resilient Societies.

This very prescient petition for rulemaking would require utilities to install reliable and renewable backup power systems, for a period of up to two years, to ensure cooling of irradiated fuel pools in the event of an extended loss of offsite power.

The Fukushima catastrophe demonstrates clearly the consequences of a loss of offsite power--to fuel pools and nuclear reactors alike. The NRC obviously must take substantive and speedy steps to address this issue.

ARE YOU LISTENING????????????? what more evidence do you need??
