NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352  
MAY 20 2011

Ronald Baker  
City of Owosso  
City Engineer/Radiation Safety Officer  
301 W, Main Street  
Owosso, MI 48867

Dear Mr. Baker:

Enclosed is Amendment No. 04 renewing your NRC Material License No. 21-18888-03 in accordance with your request.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

**Please note that we updated your NRC Materials License by modifying License Conditions No. 11, 13. D, 17, and 19 as they appeared in Amendment No. 03 of your materials license, and by adding License Condition No. 13. F. These changes should enhance your awareness of regulatory requirements and the radiation safety program elements in your license.**

**We also removed License Condition No. 18 as it appeared in Amendment No. 03. This condition is now redundant since your license has possession limits. This change required that we renumbered subsequent license conditions.**

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

R. Baker

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael G. Herr". The signature is fluid and cursive, with a large initial "M" and "H".

Michael G. Herr, CHP  
Materials Licensing Branch

License No. 21-18888-03  
Docket No. 030-28983
