

Preceptor Attestation & Grandfathering

A State Perspective
R. Dansereau

State of New York
Department of Health

Attestation - Board Certification

- Support removal of the attestation requirement if:
 - Regulator periodically reviews the board's certification processes (paper review)

State of New York
Department of Health

Attestation - Alternate Path

- Retain attestation requirement
- Allow residency program directors to provide the attestation
- Require residency program directors to describe the process used to arrive at a consensus of the involved preceptors

State of New York
Department of Health

Attestation - Grandfathering

- Remove attestation requirement from 35.57

Extension of Grandfathering

- Support an extension for all board certified individuals
- Accommodate those who were inadvertently affected by the current rule
- Benefit - reduce shortage of AMPs
