SUBJECT: SCOPING SUMMARY REPORT RELATED TO THE
ENVIRONMENTAL SCOPING PROCESS FOR THE VICTORIA
COUNTY STATION SITE, EARLY SITE PERMIT APPLICATION

The staff of the U.S. Nuclear Regulatory Commission (NRC) conducted a scoping process, from November 2, 2010, to January 3, 2011, to determine the scope of the NRC staff's environmental review of the early site permit application for the Victoria County Station site. As part of the scoping process, the NRC staff held public scoping meetings in Victoria, Texas on December 2, 2010, to solicit public input regarding the scope of the environmental review.

The NRC staff has prepared the enclosed scoping summary report, which identifies comments either received at the public scoping meetings, by letter, or by electronic mail and provides responses to those comments. In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 51.29(b), all participants of the scoping process (who have provided mailing information) will be provided with a copy of the scoping summary report. The transcripts of the scoping meetings are publicly available in the NRC Agencywide Documents Access and Management System under accession numbers ML103500329 and ML103500336.

The next step in the environmental review process is the issuance of a draft environmental impact statement (DEIS) scheduled for August 2012. Notice of the availability of the DEIS and the procedures for providing comments will be published in an upcoming *Federal Register* Notice.
