OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Secretary,

I am writing in support of PRM 50-96 (NRC-2011-0069), submitted by Thomas Popik and the Foundation for Resilient Societies.

I urge the NRC to quickly approve PRM 50-96 and to amend this petition to include suitable back-up power supplies for all nuclear reactors and fuel cycle facilities as well as the irradiated fuel pools.

The NRC hasn't been doing it's true job of actually regulating the nuclear industry, and it's time that you start doing so. You put all American citizens at risk but ignoring the very real dangers that face us. Get to work.

Thank you,

Russell Cole
