### Submitter Information

**Name:** Jerry Firman

**Address:**

42310 County Road 27 Lot 24  
Coshocton, OH, OH, 43812

---

### General Comment

In light of recent events in Japan, and the report of massive deficiencies in the current condition of piping and wiring at a substantial number of US Nuclear Plants I suggest this request to be very valid.

I would further suggest that the NRC start doing its job and oversee the actual conduct of operations on these commercial sites. I further suggest that government sites have been prone to accidents in the past and need upgraded oversight.

## Rulemaking Comments
