Dear Mr. Morrison:

Due to a change in NRC's licensing policies, we have issued a Corrected Copy of Amendment No. 03 to your NRC Material License No. 34-17371-02. As we discussed by telephone on May 19, 2011, please note the addition of total possession limits for Items 8.A., 8.B, and 8.C. on the enclosed Corrected Copy. If this is insufficient to meet your needs, please contact the U.S. Nuclear Regulatory Commission, Region III office immediately at (630) 829-9887.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".
