Mr. Edson G. Case
Deputy Director
Directorate of Licensing
United States Atomic Energy Commission
7920 Norfolk Avenue
Bethesda, Maryland 20014

Dear Mr. Case:

Per your request, we are submitting an Affidavit on behalf of Westinghouse Electric Corporation concerning our expected completion date for the calculations and documentation required by Section 50.46(a)(1) and Appendix K of 10 CFR Part 50 of the United States Atomic Energy Commission's Regulations.

Very truly yours,

J. E. McEwen, Jr.
J. E. McEwen, Jr.
Assistant to the Manager
Nuclear Safety Department

AFFIDAVIT

COMMONWEALTH OF PENNSYLVANIA:

ss

COUNTY OF ALLEGHENY:

Before me, the undersigned authority, personally appeared Mr. J. E. McEwen, Jr., Assistant to the Manager of the Nuclear Safety Department in the Pressurized Water Reactor Systems Division, Westinghouse Electric Corporation, who being by me duly sworn according to law, deposes and says that he is authorized to execute this Affidavit on behalf of Westinghouse Electric Corporation ("Westinghouse") and that the averments of fact set forth in this Affidavit are true and correct to the best of his knowledge, information, and belief:

(1) Westinghouse is in the process of performing calculational analyses and preparing documentation required by Section 50.46(a)(1) and Appendix K to 10 CFR Part 50 of the United States Atomic Energy Commission's ("Commission") regulations.

(2) The preparation of evaluations of ECCS performance is a complex undertaking. Evaluations for the individual nuclear power

reactors include detailed calculations, extended computer runs, and rigorous analyses.

(3) Because of the extremely large volume of work, the complexity of the analyses and documentation, and excessive requirements on computer facilities, Westinghouse was unable to complete the individual analyses and documentation for all of the nuclear power reactors identified below by the date originally anticipated.

(4) Westinghouse expects that the analyses and documentation relating to those nuclear power reactors identified below which are covered by the provisions of Section 50.46(a)(2) and Appendix K to 10 CFR Part 50 of the Commission's regulations will be completed by August 2, 1974 (except for H. B. Robinson Unit No. 2). Westinghouse expects that the analyses and documentation related to H. B. Robinson Unit No. 2, for which certain input was just provided to Westinghouse, will be completed by August 30, 1974. Westinghouse has informed its customers of these new schedules.

(5) Upon completion, the analyses and appropriate documentation being prepared for these nuclear power reactors will be made available to the utilities concerned.

(6) The nuclear power reactors covered herein for which Westinghouse is performing analyses and preparing documentation are:

Yankee

Indian Point No. 2

R. E. Ginna

Kewaunee

Surry No. 1 and No. 2

Donald C. Cook No. 1

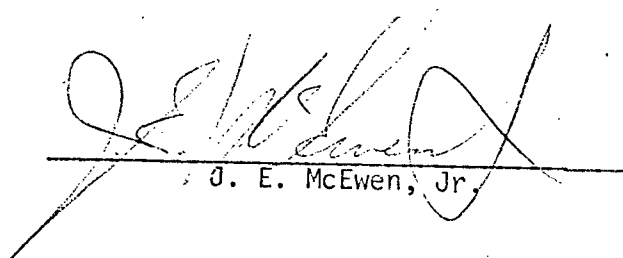

Point Beach No. 1 and No. 2

Turkey Point No. 3 and No. 4

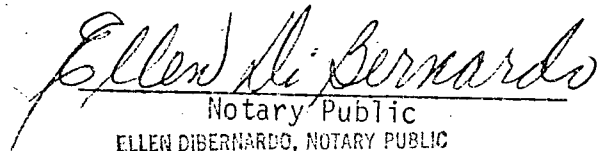

Zion No. 1 and No. 2

Prairie Island No. 1 and No. 2

H. B. Robinson No. 2

J. E. McEwen, Jr.

Sworn to and subscribed before
me this 25 day of July,
1974.
