WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

June 20, 1974

Mr. J. F. O'Leary, Director
Directorate of Licensing
Office of Regulation
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. O'Leary:

Subject: Kewaunee Nuclear Power Plant
Docket No. 50-305/Operating License DPR-43.
Extension of Time for Submittal of ECCS Evaluation
as called for in 10 CFR 50.46(a)(2)(ii)

I am E. W. James, Senior Vice President - Power Generation and Engineering for the Wisconsin Public Service Corporation. My area of responsibility includes the safe operation of the Kewaunee Nuclear Power Plant. This request for time extension in submittal of our ECCS evaluation is made based on our best knowledge of the status of our report from Westinghouse and evaluations within our own organization.

Westinghouse has by letter KW-S-413 from R. P. De Piazza indicated that our scheduled analysis completion date is July 19, 1974. Their report and attachments will follow some days later.

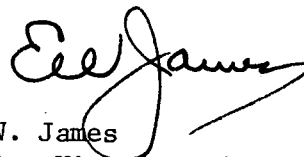

It will be necessary following this receipt to evaluate within our own organization its implications and technical specification reflections. The Nuclear Safety Review and Audit Committee will also review the final submittal and procedures will have to be changed as required.

All of the above cannot be completed in a responsible manner and still meet the August 4th submittal date.

Mr. J. F. O'Leary

request an extension of 31 days to make this submittal.

Yours very truly,

E. W. James
Senior Vice President
Power Generation & Engineering
