

July 3, 1975

Wisconsin Public Service Corporation
 ATTN: Mr. E. W. James
 Senior Vice President
 Post Office Box 1200
 Green Bay, Wisconsin 54305

Gentlemen:

This is to confirm and elaborate on telephone discussions between our staffs on July 2 and 3, 1975, in which we learned that you felt that additional time beyond July 9, 1975, was required in order for you to submit the evaluation of ECCS performance required by the Order of Modification of License issued December 27, 1974. You indicated that you will receive the evaluations from your reactor vendor before July 9, but that you intend to review this material before submittal to NRC.

You should submit by July 9, 1975, the information and analysis you have with respect to ECCS performance. You may, of course, supplement your July 9, 1975, submittal with such additional information as you believe necessary, including the results of your internal review and audit.

As is customary, we would expect that further supplemental information will be provided during the course of our review in response to staff questions.

Upon completion of this review, appropriate license modifications or changes to technical specifications to assure facility operations in conformance with the requirements of 10 CFR §50.46 will be issued.

Sincerely,

Original Signed by
 Karl Goller

Karl R. Goller, Assistant Director for Operating Reactors
 Division of Reactor Licensing
