DOMINION ENERGY KEWAUNEE, INC.
KEWAUNEE POWER STATION
INSERVICE INSPECTION PROGRAM FOURTH TEN-YEAR INTERVAL
REQUEST FOR WITHDRAWAL OF 10 CFR 50.55a RELIEF REQUEST NO. RR-2-2

On September 7, 2010, Dominion Energy Kewaunee, Inc. (DEK) submitted 10 CFR 50.55a Relief Request RR-2-2 (Reference 1) for the fourth ten-year interval of the Inservice Inspection Program for Kewaunee Power Station (KPS). Additional information was provided in a letter dated January 26, 2011 (Reference 2). The proposed relief request would establish alternate test requirements for the KPS large-bore hydraulic snubbers.

Based on discussions with NRC staff, DEK intends to address alternate test requirements for large-bore hydraulic snubbers in its submittal of the Inservice Inspection Program for the fifth ten-year inspection interval (2014-2024) rather than in a separate licensing action. Therefore, 10 CFR 50.55a Relief Request No. RR-2-2 (Reference 1) is hereby withdrawn.

If you have questions or require additional information, please feel free to contact Mr. Craig Sly at 804-273-2784.

Very truly yours,

J. Alan Price
Vice President – Nuclear Engineering
