

NOTICE OF VIOLATION

Wisconsin Public Service Corporation
Kewaunee Nuclear Power Plant

Docket No. 50-305
License No. DPR-43

During an NRC inspection conducted from May 16, 1994 through July 4, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

10 CFR Part 50, Appendix B, Criterion V requires that activities affecting quality shall be prescribed by documented instructions, procedures, or drawings, of a type appropriate to the circumstances and shall be accomplished in accordance with these instructions, procedures, or drawings.

Kewaunee Nuclear Administrative Directive (NAD) 3.5, "Shift Supervisor's Logs," Revision B dated December 28, 1993, at step 5.9.13 required that all "entering/leaving a Technical Specification action statement" shall be entered in the shift supervisor's log.

Contrary to the above, on April 1, 1994, the shift supervisor failed to document (in his log) the "entering into" and "leaving from" a Technical Specification action statement when the Turbine Driven Auxiliary Feedwater pump was removed from service during the performance of a surveillance test.

This is a Severity Level IV violation (Supplement I). (305/94009-01)

Pursuant to the provisions of 10 CFR 2.201, Wisconsin Public Service Corporation is required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555 with a copy to the Regional Administrator, Region III, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
