Subject: RE: amendment request dated June 20, 2011

CDR Davis-Urgo, please submit another letter outlining the modifications to the Navy's Master Materials License No. 45-23645-01NA, Docket No. 030-29462. We need a letter signed either by you as Executive Secretary or the Chair of the NRSC. Thank you for your attention to this matter. Shawn

Thank you. I'll double check with Orysia on the amendment. The address is being changed on your license so that's technically the amendment I was referring to.
Shawn

Shawn,

I believe that the Executive Secretary update was just information for you and Orysia. It is technically not an amendment (has not been in the past). If it is

cleaner for you, we could
provide a copy of the letters that give me these appointments.

CDR Davis-Urgo,
Thank you for the NRSC meeting notice. I am following up on the letter dated June 20, 2011 from Lino Fragoso naming you as the new MML Executive Secretary. In order to continue our review we need the following additional information submitted:

Pursuant to NRC's guidance, we must have executive management approval of this change. This includes the submission of all correspondence to the MML project manager, specifically amendment requests. In your letter dated June 20, 2011, it was signed by Lino Fragoso, the "former" executive secretary. In the past the executive secretary has been given the authority to sign correspondence on behalf of the Naval Radiation Safety Committee (NRSC). Please provide a letter from a high level in management that will confirm Lino Fragoso is still authorized to sign on behalf of the NRSC. If he is deemed to not have the authority, please submit a new amendment request signed by a person in senior management. Thank you for your attention to this matter and we will continue our review upon submission of the requested information. Please reply within 30 days of the date of this email. If you have any questions, please email or call.
