PROJECT**

Dear Mr. Bhatnagar:

This refers to the meeting conducted at our request at the Comfort Inn Hotel in Athens, TN on June 20, 2011, at 12:00 p.m. The meeting's purpose was to give Tennessee Valley Authority (TVA) the opportunity to present their updated schedule of the Watts Bar Unit 2 construction project to the NRC.

On June 20, 2011, the NRC's Director of Construction Projects, held a Category 1 meeting in which TVA provided a presentation about the current progress and scheduling plans for the Watts Bar Nuclear (WBN) Unit 2 construction project. The NRC staff presented information on the current status of the NRC's construction inspection program for WBN Unit 2. Additional topics related to the WBN Unit 2 construction project were discussed between the NRC and TVA. Following these presentations and discussions, members of the public had an opportunity to provide comments and ask questions. The list of attendees (Enclosure 1), the TVA presentation material used for discussions (Enclosure 2), and the NRC presentation material used for discussions (Enclosure 3) are attached to this letter.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
