SUBJECT: RESPONSE TO ORDER FOR IMPLEMENTATION OF ADDITIONAL SECURITY MEASURES AND FINGERPRINTING FOR UNESCORTED ACCESS FOR CERTAIN SPENT FUEL STORAGE LICENSEES – TURKEY POINT NUCLEAR PLANT INDEPENDENT SPENT FUEL STORAGE INSTALLATION

Dear Mr. Nazar:

On April 26, 2010, the U.S. Nuclear Regulatory Commission (NRC) issued an Order (EA-2010-048) that modified the current license for the Turkey Point Nuclear Plant independent spent fuel storage installation (ISFSI). The Order required compliance with additional security measures (ASMs) for physical protection and access authorization and fingerprinting at ISFSIs. On May 14, 2010, Florida Power and Light Company (FPL) submitted its response to the Order.

In the May 14, 2010, response, FPL stated that it intended to fully comply with the ASM requirements for physical protection and access authorization and fingerprinting at the Turkey Point Nuclear Plant ISFSI. FPL's April 29, 2011, submittal provided confirmation that implementation of both ASMs (Attachments 1 and 2 to the Order) had been completed and that FPL is in full compliance with the Order.

Based on our review, the NRC staff finds that your responses to the Order are acceptable. The NRC has determined that you have effectively implemented the ASMs through on-site inspection (IR 05000250/2011407 and IR 05000251/201407). If you have any questions about this letter, please call me at 301-492-3316.

Sincerely,
