R. C. DeYoung, Assistant Director for Pressurized Water Reactors, L
 KEWAUNEE - REVISIONS TO ETS

Enclosed you will find a staff evaluation of the proposed revisions to the Environmental Technical Specifications (ETS) which were submitted (Amendment #32) by the Applicant on August 31, 1973.

Our conclusion is that these changes are acceptable and will cause no significant environmental impact. Therefore, we recommend that the proposed Environmental Technical Specifications, which will be Appendix B to the Operating License, consist of the ETS submitted by the Applicant as Amendment No. 30 to the FSAR, and revised by the changes submitted as part of Amendment No. 32.
