Gentlemen:

Docket 50-305  
Operating License DPR-43  
Kewaunee Nuclear Power Plant  
Semiannual Effluent Release Report July-December, 1991

Enclosed please find a copy of the Kewaunee Nuclear Power Plant Semiannual Effluent Release Report for July-December, 1991. This report is submitted to meet the requirements of Technical Specification 6.9.3.b.

The December 1991 proportional composites for Gross Alpha, Iron 55, Strontium 89, and Strontium 90 were not available at the time that this report was written. WPSC's Project Manager, Mr. Allen Hansen, was notified in a telephone conversation with Ms. B. J. Domnick (WPSC) that a supplemental report shall be submitted when these values become available.

Also enclosed is a revised page 33 of the January-June, 1989 Semiannual Radioactive Effluent Release Report. On Table 6.1, the values presented in A.2.a under % were previously submitted as decimal fractions instead of percent. This page should be replaced in your 1989 report. We apologize for any inconvenience this may have caused.

Sincerely,

C. A. Schrock  
Manager - Nuclear Engineering

BJD/jms
