JUN 27 2011

Mr. Mark Satorius
Regional Administrator
U.S. NRC Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4351

Dear Mr. Satorius:

Enclosed is a copy of the final report for the April 14, 2011, medical services drill of the offsite radiological emergency response plans, site-specific to the Callaway Nuclear Power Plant. The participants in this drill were the University of Iowa Hospital, Cedar Rapids Area Ambulance Service, and Center Point Ambulance. The report was prepared by Federal Emergency Management Agency Region VII staff. The final report will be provided to the state of Iowa.

There were no deficiencies or areas requiring corrective action (ARCA's) identified. There were no ARCAs or deficiencies from previous exercises to be addressed in this drill.

Based on the results of the drill evaluation; the offsite radiological response plans and preparedness for the state of Iowa and the affected local jurisdictions, site-specific to the Duane Arnold Energy Center, can be implemented and are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350 approval of the offsite radiological emergency response plans and preparedness for the state of Iowa, site-specific to the Duane Arnold Energy Center, granted on July 2, 1991, will remain in effect.

If you have any questions or concerns regarding the report, please contact Mr. Ronald L. McCabe, Regional Assistance Committee Chair, at 816-283-7007, or by email at ron.mccabe@dhs.gov.

Sincerely,

A handwritten signature in cursive script that reads "Beth Freeman".

Beth Freeman
Regional Administrator
