October 25, 1993

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Station Blackout (SBO) Closeout Letter

Reference: 1) Letter to C. A. Schrock from A. Hansen dated November 19, 1992

Reference 1 provided the NRC safety evaluation report (SER) accepting the KNPP alternative method for meeting the station blackout rule. The SER stated that the NRC staff still considered the spring 1993 refueling outage as the final completion date for the implementation of the SBO rule. During discussions with the KNPP Project Manager, WPSC was requested to provide a formal SBO close-out letter. Therefore, this letter responds to that request and documents that the analyses and actions committed to in our September 18, 1992 submittal, (which provided our revised response to the SBO rule) have been completed.

Sincerely,

C.A. Schrock
Manager - Nuclear Engineering
