Ladies/Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Organizational Change

References: 1) Letter from C. A. Schrock (WPSC) to Document Control Desk (NRC)
dated August 13, 1993

Reference 1 informed the Nuclear Regulatory Commission (NRC) of personnel changes in the quality assurance/quality control areas at Wisconsin Public Service Corporation (WPSC). Upon further evaluation, additional changes are being made in these areas. Effective January 1, 1994, the quality assurance group will begin reporting to the Superintendent - Quality Programs, who will report directly to the Senior Vice President - Nuclear Power. The quality engineering and quality control groups will continue to also report to this position.

These changes will contribute to better coordination in the efforts of these groups and improve implementation of our quality programs and processes.

WPSC has concluded that these changes strengthen the WPSC organization, are administrative in nature, and do not involve a safety concern or decrease the effectiveness of the Quality Assurance Program. These changes will be described in the next submittal of WPSC's Operational Quality Assurance Program Description.

If you have any questions, please contact a member of my staff.

Sincerely,

C. A. Schrock
Manager - Nuclear Engineering
