

June 17, 1994

Docket No. 50-305

Wisconsin Public Service
Corporation
ATTN: Mr. C. A. Schrock
Manager - Nuclear Engineering
Post Office Box 19002
Green Bay, WI 54307-9002

Dear Mr. Schrock:

SUBJECT: LETTER FROM C. A. SCHROCK TO M. A. RING DATED MAY 20, 1994

This letter addresses your May 20, 1994, response to our request for additional information regarding your interpretation of Emergency Operating Procedure (EOP) FR-H.1.

Your interpretation on manual initiation of safety injection on low pressurizer level requires further review. As is normal in resolving complex technical issues such as this, Region III is forwarding this matter to our Office of Nuclear Reactor Regulation (NRR) for further technical review and resolution. We will inform you of the outcome of this review and contact you if additional information is needed.

Per your request, we have reviewed our assessment of the Senior Reactor Operator candidate, Docket No. 55-32088. We have concluded that his failure remains valid. However, we will offer the candidate, in a separate letter, another opportunity to submit additional information.

If you have any questions, please contact me at (708) 829-9703.

Sincerely,

Original signed by Mark A. Ring
