Subject: SOARCA - Some loose ends

Richard;

All the best as you move SOARCA forward. I'm certain you will continue to receive great management support. Don't hesitate to call or email me if you have a need to. Also please keep me apprised as you accomplish those key milestones towards completion. Below are some items that may have been on the back burners and we should not lose track of. You may have made progress on some already.

- 1) Plan multiple "message check" meetings with DSA and RES management before starting that big Commission paper on what comes after SOARCA. (b)(5)
(b)(5)
(b)(5)
- 2) Need proper closure for the Sequoyah plant. The plant agreed to participate in SOARCA and we began some initial assessment. We eventually focused only on Peach Bottom and Surry. (b)(5)
(b)(5)
(b)(5)
- 3) Information Brochure – Brochure should be in the pipeline as soon as possible. Don't underestimate management's interest in the contents. (b)(5) Suggest you draw a review/approval plan and get management buy-in on the plan very soon.
- 4) Uncertainty Analysis. (b)(5)
(b)(5)
- 5) Communication Plan – Consider updating the plan after a new schedule is established.
- 6) Peer Review (b)(5)
- 7) Steering Committee – Consider revising the charter for the next meeting. Probably needs updating, i.e., membership changes, etc

I don't need any responses to any of these items.
Regards;

Jimi T. Yerokun
