Pat:

I was giving you the answer to give him (which I think you subsequently did, yes?).

(b)(5)

EX. 5

Happy to discuss further if you wish. Kathy may wish to weigh in as well.

Mike

We are counting on the team spirit that you all possess in abundance to succeed. Please see me if you have questions or concerns about this e-mail.

Thanks

Mike

Mike,

These are the key folks on SOARCA at various times during the project. The SOARCA schedule has some flexibility but we need to meet specific dates for completion of products.

If other RES divisions are using these SNL/Dycoda key contractors, we would coordinate timing as we have been doing somewhat with DRA. This coordination of work priorities would help us tremendously ensure the SOARCA product is delivered on the new schedule.

Sandia

Yvonne McClellan- Project PM and working on peer Review Comments

Kyle Ross- ISLOCA/ Appendix B in general

Nate Bixler- MAACS for Appendix A+B — to provide MAACS parameter distributions and ranges (with exception of emergency response ones which Joe Jones has already completed) with written technical bases for the uncertainty NUREG/CR, reviewing MACCS results and write-up for NUREG/CR

Randy Gauntt- All Appendices and main report- (b)(5) RIC slides; can assist in uncertainty analysis

Patrick Mattie -uncertainty analysis

Joe Jones - to provide MAACS evacuation parameter distributions uncertainty NUREG/CR, reviewing MACCS

Don Kalinich -computational runs with MELCOR for uncertainty analysis (but others could do that if Don becomes unavailable)

Dycoda

Mark Leonard- MELCOR for Appendix A+ Appendix A in general (thereafter uncertainty MELCOR parameters and written technical basis

KC Wagner- Assisting on ISLOCA

ORNL

Keith Eckerman -- MAACS parameter distributions and health risk training for staff

Subject: PLEASE SEND ME...

... a list/description of the Sandia folks working on SOARCA. I plan to send out a non-interference e-mail to all regarding those people.

Thanks

ERIS
