**Subject:** RE: HNP Supplement to MUR Power Uprate LAR

Brenda – As discussed, we can now accept the revised LAR for further review. This is our branch position.

Thanks  
Swagata

**Subject:** FW: HNP Supplement to MUR Power Uprate LAR

Can you please send the acceptance review eMail you sent and retracted, I assume that will be the LIC 109 status fir EEEB.

Thanks  
Brenda

Brenda/Som,

I have looked at the revised “Electrical Equipment Design” descriptions provided in Enclosure 2 of the supplement to the LAR.

Although, the description relating to the iso-phase bus is still somewhat not clear (i.e., further clarifications will be required during RAI process), we can accept the LAR for further review.

Vijay

**Subject:** FW: HNP Supplement to MUR Power Uprate LAR

This is the supplemental information for the MUR. Provided the information is robust enough to start your review I will be expecting to be able to send the LIC-109 letter today. Let me know.

**Subject:** HNP Supplement to MUR Power Uprate LAR

Brenda,

I have attached an electronic version of the HNP MUR Power Uprate LAR (Supplement) with the information that was requested during discussions held with the NRC over the last month. The attached version excludes two enclosures (enclosures 5 & 6) because of proprietary information. The original MUR Uprate LAR (submitted April 28, 2011) contains the identical enclosures. No information was changes in those enclosures. A full copy of the revised application has been placed in the mail.
