NRC STAFF'S JULY 2011 BIMONTHLY REPORT
REGARDING THE SCHEDULE FOR REVIEW OF THE
WATTS BAR NUMBER 2 LICENSE APPLICATION

The Staff of the Nuclear Regulatory Commission ("Staff") hereby provides the information the Atomic Safety and Licensing Board ("Board") requested in its May 26, 2010 Scheduling Order ("Order"). In the Order, the Board instructed the Staff to submit a report on July 2, 2010, to be updated on the first Tuesday of every other month thereafter, updating its estimates of the dates on which the final Environmental Impact Statement ("EIS") and the final Safety Evaluation Report ("SER") will be issued, and in addition, to promptly inform the Board of any other developments that could potentially impact the schedule for this proceeding.

The current estimates are changed from those provided in May 2011.

The Staff now estimates February of 2012 for completion of the final supplement to NUREG-0498, *Final Environmental Statement Related to the Operation of Watts Bar Nuclear Plant Units Nos. 1 and 2*, (December, 1978), and March of 2012 for the final supplement to NUREG-0847, *Safety Evaluation Report Related to the Operation of Watts Bar Nuclear Plant, Units 1 and 2*, (June 1982).

Respectfully submitted,

/Signed (electronically) by/

Andrea Z. Jones
